ECO-FRIENDLY

HOTEL AND CONFERENCE
IN THE HEART OF SWEDEN

Welcome to the beautiful Ytterjärna Hotell

In the Sörmland landscape only 40 minutes from the hustle and bustle of Sweden's main city lies Ytterjärna Hotel and Conference. Here you live close to the sea with access to a stunning garden park, as well as all of Kulturhuset's events. We are proud to be able to offer everything from active farms to shops, restaurants, cafes, and art-exhibits all well worth a visit.

In Ytterjärna, nature and architecture go hand in hand: by combining color, form and ecological awareness inspiring environments are created. The bright and airy hotel rooms are decorated with Swedish design furniture. The rooms are located in a building just 30 meters from Kulturhuset and all rooms have their own outside entrance. In the basement there is a small gym which our guests have access to. There are also two guest lounges equipped with open fireplaces, a small kitchen, TV and Wi-Fi.

The hotel's breakfast consists of tasty organic products from KulturMat restaurant & café. In addition to breakfast they also serve lunch and delicious pastries, using seasonal, local and organic ingredients.

We have 34 carefully designed hotel rooms: single, double and junior-suites. One of these rooms is wheelchair accessible, and another two of them allow guests to bring their dogs.

More than just a hotel!

Here you can enjoy both nature and culture experiences in a Scandinavian designed area with unique buildings & a hotel that lets you really wind down and reduce the city stress. Here everything is sustainably produced from the ground up. Järna, where our hotel is located, is the cradle of the Swedish ecological movement since the 1960's and this is affected in everything from the serenity of the garden park and the well known architectural buildings, to the biodynamic food and how we work.

On site we also have a number of conference rooms of various sizes that can take up to 500 guests, hostel rooms, walking trails, an ecological café, a permanent art-installation called *Skyspace* by James Turrell as well as a Culture house with a very high end repertoire that mainly consists of classical music and opera but also hosts everything from new circuses and environment lectures to pop-concerts and dance performances. The culture house is famous for its unique architecture, that includes a beautiful hand painted ceiling, in attribution to it being one of the concert halls with the best acoustics in the entire Europe!

If you have any questions, please contact our hotel manager Ingrid at ingrid@kulturhuset.nu

Or contact our hotelreception directly to book your stay at info@ytterjarnahotell.se
