## A FLOATING MUSEUM

Board a truly unique journey, as you step back in time and experience the magic of a bygone era. This extraordinary vessel holds the distinction of being the world's oldest coal-fired, propeller-powered steamship, still powered by its original motor dating back more than a hundred years.

The steamship is not just a charming relic; it is a floating museum that offers a unique opportunity to engage yourself in history.

Ejdern was built in 1880 at the Gothenburg Mechanical Workshop to operate in coastal traffic in the Gothenburg archipelago and was launched on May 14 of the same year. Between the years 1898 and 1906, Ejdern navigated the waters around Östergötland before eventually ending up in Södertälje.

During the summer season, S/S Ejdern becomes your gateway to some of Sweden's most captivating destinations. Hop aboard and cruise for Stockholm, the vibrant capital city. Or hit course for the fairytale-like town of Mariefred or the old Viking city of Birka, a UNESCO World Heritage site.

It is also possible to charter the ship for maximum 90 passengers.
