

LÅNGBRO GÅRD

◆ MÖLNBO ◆

Tranquility in the countryside – just one hour from Stockholm

Sustainability

Our wish is that as much as possible that is consumed here at Långbro Gård should come from the local area and be produced in a sustainable and organic way. From hunting and farming to crafts and flowers. Step by step, we want to recreate what used to happen in a parish like this, where many made a living together. With recycling and organic cultivation and production methods, we are moving into the future together with a slightly lighter footprint.

Stay in our beautiful mansion built in 1844
